CONCRETE SOCIETY OF MALAYSIA

INTRODUCTION

The Concrete Society of Malaysia (CSM) was formed on 15 December 1990 and was officially registered as a national organization on 27 February 1993. CSM will served as unifying body of all the professionals, manufacturers, suppliers, contractors, researches and academia to serve their common interest in concrete and its related materials.

OBJECTIVES

- To promote the advancement of concrete technology and related materials and their application.
- To provide education and training to the industry in concrete related technology.
- To encourage local research on concrete, its constituents and other related materials used with concrete with respect to their composition, properties, manufacturing methods and techniques, test practices, distribution and management to suite local environment

ACTIVITIES

The following main activities are proposed for the benefit of its members and industry:

- Furtherance of good concrete practice in the industry to assure quality of workmanship.
- Dissemination of information on local and overseas concrete technology and research findings through publications, bulletins and journal.
- Training of technical staff on concrete technology to equip the needs of industry.
- Organization of workshops, seminar and conferences to promote latest developments.
- Promotion of liaison between researchers in the industry and academia for inventions and designs.
- Liaison with international concrete societies or organizations to promote advancement in training and good practice.
- Provision of expertise to the needs of the industry.
- Assisting school children and school leaver with their career selection in the concrete industry.

- Participation in International events such as conferences and exhibitions.
- Initiations of interest in concrete technology through competitions and promotions.

MEMBERSHIP

- Any one interest in the furtherance of knowledge, research, production, marketing, training of cement, concrete and their constituent materials can become a member of the Concrete Society of Malaysia (CSM).
